Hub Cleaning & Care Instructions

Laminate Tiles And Panels

To clean the HUB laminate tabletop surface, use a damp cloth or sponge and a mild soap or detergent. Rinse thoroughly with warm water and wipe dry. Difficult stains such as coffee or tea can be removed using a mild household cleaner/detergent and a soft bristled brush, repeating as necessary.

- Don't set hot appliances or pans directly on the Hub laminate Tiles. You can burn and scar the surface. ...
- Don't use harsh abrasive cleansers. ...
- Don't use Hard Scotch Brite, steel wool or scrubbing tools containing steel wool, they too will scratch and dull the finish.
- Don't use a laminate Tiles as a cutting board, only the special cutting board Tiles.

Acrylic Panels

Stick with micro-fiber type of cloth. Avoid ammonia-based products, like Windex or other home glass cleaners, because they contain harmful chemicals that will actually damage the surface of the panels leaving it cloudy looking. Soapy water is the safest and most effective cleaning solution for Hub acrylic Panels.
