

## OUTDOOR PORTABLE PATIO HEATERS

*PROVIDE A WARM EXPERIENCE FOR YOUR GUEST UNDER THE STARS.*

### Mushroom Heater- description:

**Model #2890**

**Burner**

The 304 stainless steel burner produces a powerful 46,000 BTU's of heat output, You could feel warm within 5 seconds. The reliable Anti-tilt switch and Automatic shut off device ensures that your patio heater will light safely.

**Fuel Source**

The patio heater is designed, and safety certified, to run on propane and butane gas using a standard 20 lb tank (not included). The consumption rate is approximately 10 hours on a full 20 lb tank. which is very economical.

**Portability**

The patio heater comes with wheels for ease of mobility. The wheel assembly is comprised of thick gauge stainless steel. The heavy duty wheels are designed to take the abuse of rough patio terrain.

Material: Steel / Stainless steel / Steel mixed stainless steel	
46,000 BTUS MAX	Heating area: 120-200 SQFT
Power: 13,000W	Total Height: 2210mm
